

VIRTUAL STORYTIME

@ the DeSoto Public Library

APRIL 9TH, 2020

Today's theme will focus on the importance of good habits while being sick.

Otis has caught a cold and learns to rest, cover his sneezes and coughs, and to NOT share his germs.

BOOKS SHARED

- [Dear Daisy, Get Well Soon.](#) Maggie Smith. Crown Publishers. 2000
- [Just a Little Sick.](#) Mercer Mayer. Harper Collins Publishing. 2010

PARENT'S TIP

Use glitter to demonstrate how germs can very easily pass from one person to another.

1. Have your child pretend to sneeze in his/her hands.
2. Sprinkle glitter on your child's hands to represent germs.
3. Encourage him/her to do grab an object or rub his/her face or give a high five.
4. Let your child see how the glitter "germs" can spread to make people sick.

I NEED A TISSUE SONG

tune of "Old MacDonald"

I have myself a rotten cold... AA-AA-ACHOO!
I have myself a rotten cold... AA-AA-ACHOO
A sneeze sneeze here, a sneeze sneeze there...
I have myself a rotten cold... AA-AA-CHOO!

When I'm at school I catch my sneeze... AA-AA-CHOO!
When I'm at school I catch my sneeze... AA-AA-CHOO!
A tissue here, a tissue there...
When I'm at school I catch my sneeze... AA-AA-CHOO

To get rid of germs I wash my hands... Washy, washy, wash
So no one else will feel like this... Washy, Washy, Wash
A wash, wash here, a wash wash there...
To get rid of germs, I wash my hands... Washy, washy, wash

HAND WASHING SONG

tune of Twinkle, Twinkle Little Star

I can wash my hands you see,
Wash them clean as clean can be.

Inside, outside, my fingers, too
Around my thumbs and then I'm through,

Now rinse away the dirt and stains,
Send those germs down the drain!
